

GILLFOR 

PRODUCT
CATALOGUE

2027

What sets Gillfor apart is not only the products in our yards, but the people who stand behind them. Our sales team is consultative by design, dedicated to working with you to grow your business by offering strategic advice, product and pricing guidance, and retail training and support.

“Buy only what you need, when you need it” is more than just a marketing campaign. Overstock is one of the costliest problems in our industry.

As a building materials retailer, I know that you constantly face challenges about what to stock, when to stock it, and how changes in demand may impact those investments. Helping you make those decisions and backing them up with the right products when you need them is what Gillfor Distribution does best. Whether you have partnered with us for many years or are opening these pages for the first time, I'd like to personally thank you for considering us as your supply partner.

Gillfor is proudly 100% Canadian owned and operated. From Langley, British Columbia to Mount Pearl, Newfoundland, our twelve distribution locations span the country from coast to coast. Wherever you are, there is a Gillfor team nearby that understands your market, your opportunities, and the needs of the customers walking through your door.

Inside this catalogue you will find a comprehensive collection of the top building material brands that we represent. Our strong vendor partnerships were established with a clear priority: supporting Canadian businesses. We believe that when Canadian manufacturers, distributors, and retailers support one another, the entire industry becomes stronger. Our Canadian vendor partnerships provide dealers with industry-best products, shorter lead times, greater pricing stability, and supply they can count on.

It ties up capital you could be putting to work elsewhere, fills yard and warehouse space that could be better utilized, and leaves you exposed when demand shifts or a season ends early. We hold the inventory and carry that risk so you don't have to. Buying only what you need keeps your inventory turning and reduces those risks. It is one of the many ways we are evolving to support the needs of our dealer partners.

Thank you for your business and your trust. Whatever 2027 holds, our commitment is to provide the right products, inventory, and people to help you embrace the year ahead on your terms.

Sincerely,

Bob Dosanjh

CEO, Gillfor Distribution

RESIDENTIAL FRAMING PRODUCTS

From the frame to the finish, quality materials make all the difference. Gillfor provides the dimensional lumber, plywood and OSB you need to build strong, efficient and reliable homes—delivered with the service you can count on.

PRODUCTS

DIMENSIONAL LUMBER

The grades & quality you need for your build.

PLYWOOD

Spruce and fir plywood for floors, walls and roofs.

OSB

Reliable sheathing providing structural strength and jobsite efficiency.

IKO delivers trusted roofing performance with durable construction, proven protection, and lasting curb appeal. From shingles to roofing system accessories, IKO offers solutions built to withstand the elements and perform for years.

PERFORMANCE

IKO Performance shingles deliver proven impact and wind resistance. Dynasty offers Class 3 impact protection, while Nordic achieves Class 4, with ArmourZone® reinforcement for added strength.

DESIGNER

IKO Designer shingles combine premium aesthetics with proven protection. Crowne Slate, Armourshake, and Royal Estate deliver distinctive style with impact-resistant performance.

ARCHITECTURAL

IKO Architectural shingles combine dimensional style with dependable weather protection. Cambridge shingles feature durable construction, FastLock® bonding, and built-in algae resistance for lasting performance and curb appeal.

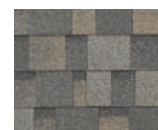

ACCESSORIES

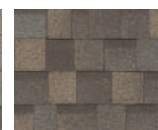

IKO shingles and accessories work together in a unified system to protect against water, leaks, and harsh weather while reinforcing vulnerable roof areas and helping create a durable, complete roofing system.

IKO Building Envelope insulation systems deliver high-performance thermal protection for new construction and retrofit applications. Enerfoil™ and Ener-Air™ polyisocyanurate sheathing provide high R-value per inch and can be paired with compatible IKO tapes to create an efficient 2-in-1 air and vapour control system.

ENERFOIL

KEY BENEFITS

4-IN-1 PERFORMANCE

When paired with compatible IKO tapes, Enerfoil provides insulation, air barrier, weather-resistant vapour barrier, and sound-control performance in one system.

BUILT FOR COMFORT & DURABILITY

Engineered for strong weather resistance and enhanced acoustic performance, Enerfoil helps create quieter, more comfortable buildings.

ENERGY EFFICIENT

A high thermal R-value helps improve building efficiency, reduce heat loss, and lower energy costs.

ENER-AIR

KEY BENEFITS

3-IN-1 PERFORMANCE

When paired with AquaBarrier™ VP Tapes, Ener-Air provides insulation, a weather-resistant air barrier, and sound-control performance in one system.

VAPOUR-PERMEABLE PROTECTION

High vapour permeance and excellent water-shedding capabilities help manage moisture while protecting exterior wall assemblies.

BUILT FOR COMFORT & DURABILITY

Engineered for strong weather resistance and enhanced acoustic performance, Ener-Air helps create quieter, more comfortable buildings.

ENERGY EFFICIENT

A high thermal R-value helps improve building efficiency, reduce heat loss, and lower energy costs.

PRODUCTS

ENERFOIL

A high-performance rigid insulation sheathing for cavity wall, stud wall, exterior insulation, and cathedral ceiling applications.

AVAILABLE THICKNESS*

– 12 mm (0.5 in)	– 50 mm (2.0 in)
– 16 mm (0.625 in)	– 64 mm (2.5 in)
– 18 mm (0.75 in)	– 75 mm (3.0 in)
– 25 mm (1.0 in)	– 90 mm (3.5 in)
– 38 mm (1.5 in)	– 100 mm (4 in)

ENER-AIR

A non-structural sheathing in cavity wall, stud wall, exterior insulation or cathedral ceiling construction.

AVAILABLE THICKNESS*

– 12 mm (0.5 in)	– 25 mm (1.0 in)
– 16 mm (0.625 in)	– 38 mm (1.5 in)
– 18 mm (0.75 in)	– 50 mm (2.0 in)

*Thickness availability varies by region. Contact your Gillfor Account Manager for more information.

IKO ACRYLICSTICK® SA TAPES

A primerless, self-adhering, non-permeable tape that provides reliable air and vapour barrier performance. Ideal for detailing around windows, doors, skylights, cladding systems, and inside or outside corners.

DUPONT Styrofoam Brand

DuPont™ Styrofoam™ Brand CM20 and SM30 are durable extruded polystyrene (XPS) insulation boards designed to deliver reliable thermal performance and moisture resistance in a wide range of building applications.

STYROFOAM™ BRAND CM20

KEY BENEFITS

IMPROVED ENERGY EFFICIENCY

Helps maintain consistent indoor temperatures, reduce heating and cooling costs, and minimize condensation potential within wall cavities.

LIGHTWEIGHT & DURABLE

Easy to handle, cut, and install—helping save time and labour on site.

CONTINUOUS INSULATION

Provides a continuous layer of insulation to help reduce thermal bridging and improve overall wall performance.

STYROFOAM™ BRAND SM30

KEY BENEFITS

MOISTURE & THERMAL PROTECTION

Provides reliable thermal resistance to help reduce heat loss while resisting moisture infiltration, condensation, and freeze-thaw cycles.

EASY TO HANDLE & INSTALL

Lightweight and easy to cut, handle, and install in both above- and below-grade foundation applications.

VERSATILE & DURABLE

Available in multiple thicknesses, surface finishes, and edge treatments to suit a variety of commercial and residential applications.

DUPONT Tyvek

DuPont™ Tyvek® building envelope solutions help protect structures from air and water intrusion while allowing moisture vapour to escape. Engineered for durability and energy efficiency, Tyvek® products help support comfortable, long-lasting residential and commercial wall assemblies.

TYVEK® HOMEWRAP®

Breathable weather barrier that helps block air and water while allowing moisture vapor to escape.

TYVEK® COMMERCIALWRAP®

High-performance air and water barrier designed for commercial building envelopes.

TYVEK® DRAINWRAP™

Weather barrier with enhanced drainage to help manage water behind exterior cladding.

DUPONT™ FLEXWRAP™

Flexible flashing for sealing curved and irregular window, door, and penetration openings.

DUPONT™ STRAIGHTFLASH™

Self-adhered flashing for straight window and door openings and other critical transitions.

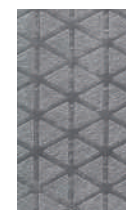

DUPONT™ FLASHING TAPE

Durable flashing tape for sealing seams, joints, and penetrations in the building envelope.

TYVEK® PROTEC™

Durable synthetic roofing underlayment that helps protect the roof deck from moisture during and after installation.

PROTEC™ 120

25 lbs.
30-Year Warranty

Roof Types:
Asphalt, Cedar, Metal, Tile, Slate

ROCKWOOL stone wool insulation delivers durable thermal, acoustic, and fire-resistant performance for residential and commercial applications, helping improve comfort, efficiency, and building durability.

KEY BENEFITS

THERMAL PROPERTIES
Traps air to reduce heat transfer, helping buildings stay warmer in winter and cooler in summer.

DURABILITY
Delivers long-lasting performance with minimal maintenance, even through changing weather and humidity.

DESIGN FLEXIBILITY
Versatile material properties support a wide range of applications, forms and design requirements.

FIRE RESILIENCE
Resists fire, helps contain its spread, and does not contribute significant toxic smoke.

MOISTURE REPELLENCE
Repels water and resists moisture to help protect long-term building performance.

ACOUSTICS
Absorbs sound and reduces noise to create quieter, more comfortable indoor spaces.

THERMAL & EXTERIOR INSULATION

COMFORTBOARD®

Thermal insulation for walls, floors, basements, crawlspaces, and attics, with flexible edges for a snug fit and consistent performance.

COMFORTBATT®

Thermal insulation for walls, floors, basements, crawlspaces, and attics, with flexible edges for a snug fit and consistent performance.

INTERIOR, ACOUSTIC & FIRE PROTECTION

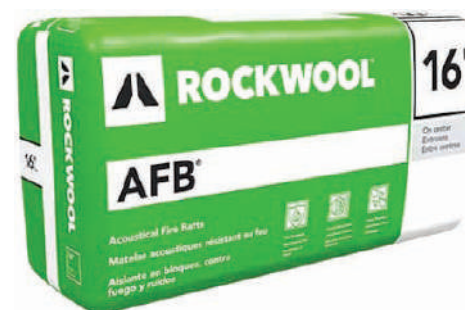

ROXUL SAFE® 45

Fire-blocking insulation for concealed spaces in multi-unit residential construction, supporting improved fire and acoustic performance.

SAFE'N'SOUND®

Interior insulation for walls, floors, and ceilings, combining sound absorption, fire resistance, and dimensional stability.

AFB®

Noncombustible insulation for interior steel stud partitions, delivering reliable fire resistance and sound absorption in wall and floor-ceiling assemblies.

Owens Corning insulation delivers reliable thermal, acoustic, and energy-efficient performance with products designed for easy installation, long-term durability, and lasting comfort throughout the home.

PINK NEXT GEN® FIBERGLAS®

The next generation of fiberglass insulation. A preformed, flexible blanket with advanced fiber technology for easier handling and more precise installation.

KEY BENEFITS

ADVANCED FIBRE TECHNOLOGY

SMOOTH UNIFORM SURFACE

SPLITS CLEANLY

QUIETZONE® PINK NEXT GEN® FIBERGLAS®

Advanced fiber technology improves recovery and stiffness for faster installation. A smoother, low-dust texture delivers clean one-pass cuts and an inspection-ready finish, while compression packaging keeps materials neat and compact.

KEY BENEFITS

SOUND ABSORPTION

FASTER, SAFER INSTALL

99% SAFER FIRE PERFORMANCE

SAFE INGREDIENTS

ATTICAT® PINK® BLOWN-IN

The attic is one of the easiest places to add insulation to improve the comfort and energy efficiency of your home. AttiCat Expanding Blown-In Insulation is designed for your attic insulation project in new or existing homes.

LOOSEFILL

CertainTeed offers a versatile range of gypsum panels for residential and commercial construction, including standard and specialty boards designed for enhanced fire resistance, moisture protection, impact performance, sound control, and sustainability.

STANDARD DRYWALL PRODUCTS

KEY BENEFITS

RANGE OF OPTIONS

Available in a range of sizes and thicknesses to suit a variety of wall and ceiling applications.

SUSTAINABLE

GREENGUARD Gold certified and made with 100% recycled face and back paper.

EASY TO INSTALL

Easy to cut, handle and install with standard tools, with a smooth surface that requires minimal time for sanding and finishing.

SPECIALTY DRYWALL PRODUCTS

KEY BENEFITS

LIGHTWEIGHT

Up to 30% lighter than regular drywall for easier lifting, handling and installation, with built-in sag resistance.

SUSTAINABLE

GREENGUARD Gold certified and made with 100% recycled face and back paper.

FIRE RESISTANT

Specially formulated for enhanced fire resistance, with select products approved for assemblies rated up to 4 hours.

ACOUSTIC PERFORMANCE

Designed to reduce airborne sound transmission for improved sound control.

Benefits apply to select specialty drywall products.

STANDARD & SPECIALTY DRYWALL PRODUCTS

REGULAR DRYWALL

Designed for interior walls and ceilings, available in 1/4" and 3/8" thicknesses.

EASI-LITE® DRYWALL

Up to 30% lighter with built-in sag resistance, available in 1/2" thickness.

EASI-LITE® INFINAÉ™ CARBONLOW™ DRYWALL

Lightweight and up to 60% less embodied carbon, available in 1/2" thickness.

TYPE C DRYWALL

Made with a high-density, glass fibre-reinforced gypsum core for exceptional fire protection, available in 1/2" and 5/8" thicknesses.

TYPE X DRYWALL

Enhanced fire resistance, sound control and moisture resistance for residential and commercial fire-rated applications, available in 5/8" thickness.

M2TECH® DRYWALL

Engineered for enhanced mould and moisture resistance in high-humidity areas such as bathrooms and kitchens, available in 1/2" and 5/8" thicknesses.

GLASROC® SHEATHING

A high-performance, fire and moisture-resistant wall option whose reinforced fibreglass mat design ensures strength and stability for any project.

SILENTFX® QUICKCUT™

Exceptional noise control with a high-density gypsum core and sound-damping polymer laminate, available in 5/8" thickness.

FINISHING PRODUCTS

A complete range of drywall finishing products and accessories, including joint compounds, setting compounds, tapes, corner solutions, textures and repair products designed to support smooth application, durable finishes and professional results.

Trusscore products combine to create a complete, high-performance wall system. Wall&CeilingBoard provides smooth, durable coverage, SlatWall adds flexible storage and organization, and Trusscore Trims deliver a clean, finished look.

KEY BENEFITS

LIGHTWEIGHT & EASY TO INSTALL

Requires less labor than drywall and installs four times faster – with just one person needed for installation.

MOISTURE & WATER RESISTANT

Impervious to water and moisture, Trusscore wall panels won't degrade or deteriorate in wet or damp environments.

STRONG & DURABLE

Industry-leading strength and durability designed to withstand the toughest applications.

INSTANT ORGANIZATION

Trusscore SlatWall provides instant organization with snap-in hooks, baskets, and shelves that click quickly into place.

EASY TO CLEAN

Trusscore's smooth surface wipes clean easily and withstands detergents, chemical cleaners, and repeated pressure washing.

TimberTech

TimberTech decking combines exceptionally realistic wood looks with engineered durability that resists fading, staining, splintering, cracking and rotting for lasting beauty with minimal maintenance.

COMPOSITE

Long-lasting performance at a more accessible price point.

KEY BENEFITS

WARRANTY PROTECTION

25- and 30-Year Product, Fade, and Stain Limited Warranties.

MOISTURE RESISTANT

Some collections feature a four-sided cap to protect against mold, mildew, and rot.

SUSTAINABLE

TimberTech transforms plastic waste and wood scraps into durable, low-maintenance decking.

ADVANCED PVC

Premium performance for the toughest conditions.

KEY BENEFITS

INDUSTRY-LEADING WARRANTIES

50-Year Fade & Stain and Limited Lifetime Product Warranties.

TOP-RATED FIRE RESISTANCE

Ignition Resistant designation, Class A Flame Spread Rating, and/or WUI Compliant

FRIENDLIER TO BARE FEET

Select colours stay up to 30° cooler, with a splinter-free surface and up to 40% better traction.
